

LAB SERVICES

Active Treatment Systems, Inc. (ATS) provides laboratory services using up to date analytical instruments and equipment. The services include a wide range of prototype, pilot and analytical tests of liquids and solids that might have a negative impact on the environment. The ATS lab staff has over 30 years of combined experience.

OUR LABORATORY SERVICES INCLUDE

- ASTM Jar Testing
- Bench Scale Testing
- Chemical Selection and Usage Rate Analysis
- Estimate Settling Rates and Sludge Volumes
- Prototyping Treatment System Concepts
- Water Quality Testing and Reporting
- Water Treatment Simulation and Assessment

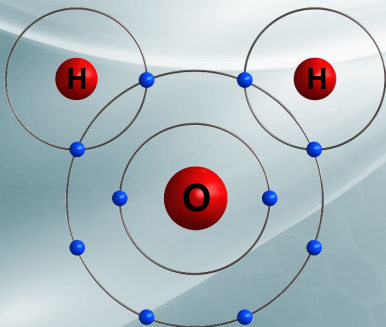

ATS has the technical expertise, sophisticated laboratory equipment and instruments necessary to make accurate assessments of water management techniques that will keep a project in compliance, maximize efficiency and reduce costs. Refer to the ATS website for more detailed information on ATS Lab services.

Using the combination of ATS experience and vendor relationships, ATS is able to conceive, build and validate practical solutions for engineering consultants, contractors and project owners.
