

# GROUNDWATER TREATMENT AND REMEDIATION

Active Treatment Systems, Inc. (ATS) is an environmental solutions provider that offers complete turnkey groundwater treatment systems. Using proven and effective technologies, ATS can help businesses meet difficult water quality discharge requirements.

## GROUNDWATER TREATMENT APPLICATIONS

### DEWATERING:

- Tunneling
- Trenching
- Micro Boring
- Underground Construction

### CONTAMINATION & POLLUTION:

- Volatile Organic Compounds (including Semi-Volatile)
- Total Petroleum Hydrocarbons
- Inorganics
- Metals
- Poly Aromatic Hydrocarbons
- Pesticides
- Turbidity

## TREATMENT SYSTEM FEATURES

- Mobilize and set up quickly
- Small footprint adapts quickly to site conditions
- Automated shutdown and diversion of discharge
- Record real-time data providing backup for regulator required operator record keeping
- Upload data to Internet WEB site for real time access
- Complete package from system design to operations and maintenance
- Utilize multiple treatment steps
- Onsite Laboratory and Weather Station
- Maximize flexibility with modular equipment
- Operate and Monitor with smart phone or computer

## SYSTEM OPERATION BY TRAINED AND CERTIFIED TREATMENT TECHNICIANS

- Basic classroom and field training covering water treatment technology and system operation (100 hours minimum)
- HAZWOPER Certification
- MSHA Certification (Part 46 & 48)
- CPR/First Aid Certified
