

Stormwater Active Treatment Systems Presentation

Supporting Attachment F of the Construction General Permit (CGP)

Active Treatment Systems, Inc. (ATS, Inc.) presentations give your staff the tools and knowledge to maintain compliance with Attachment F of the CGP. ATS trainers provide you with skills that work in real situations. Topics included are:

- Introduction to an Active Treatment System
- Overview and Highlights of Attachment F
- Discussion of Water Quality and Water Chemistry
- Hands On Demonstration of Flocculation Jar Test
- Review of ATS Design & Treatment Train Layout
- Fundamentals of Flocculation & Sedimentation
- Tour of ATS Trailer Control Unit

BENEFITS

- Mobile: We Come To You!
- Educational: Include in your QSD/QSP Training Program
- Flexible: Based on your schedule
- Customized: Tailored to your needs

To Schedule Call: 916-652-9745

Active Treatment Systems, Inc. (ATS) is a SBE certified service company specializing in the management of stormwater, groundwater and industrial wastewater issues on construction, industrial, and environmental remediation projects. ATS also provides wastewater recycling, sludge dewatering, engineering design, laboratory services, training, and equipment rental. Our customers include some of the largest builders in the state as well as small, local construction firms. Our projects are on highways, bridges, tunnels, rapid transit, pipelines, mines, landfills, high-rise buildings, industrial, commercial and residential sites and anywhere there is a problem with contaminated water and sludge.
